Ref: "From GERMANY" information given by Nakik PASHOLLI, Luitpoldkoloni 66 $\frac{1}{2}$ , Hohenbrunn ueber MUENCHEN, 3 May, 1955; 10 June, 55 Meeting of the Executive Committee of NCFA on the 22 June 55, regarding a telegram sent by Kol HILA, officer in the 4000 La.Sv.Co.

FROM GERMANY

Namik PASHOLLI, Luitpoldkoloni 66 $\frac{1}{2}$ , Hohenbrunn, informed on the 28 June, 1955 about the following:

"I wish to inform you that the command of HEIDELBERG, on the base of a cable received by their superiors in the USA, has notified the 4000 Labour Service Company that the desision taken about having 21 persons out of the Company, was postponed for the time being.

Whoever may have done this, here we have spread news that such has been done thanks to the intervention of the NCFA, and the gentlemen outside the Committee have been quite unhappy that they did not realise their aims against us and the NCFA! It is considered a great success for us!

---

On the 29 June, 1955, Namik PASHOLLI also informed:

Concerning the case "Kol HILA" it is true, but he has not been expelled of the Company, they have only decided his degradation from officer to "sergeant major"!

In connection with this case I wish to give you the following information:

We knew that on the occasion of the reduction of the force of the 4000 Labour Service Company, according to the orders of the superiors, the organic of the personnel: officers and sub-officers were included too. Of the 7 officers of the organic, it had been decided that only 5 would remain officers, while two would have been degraded.

For this, and one day before the communication of the names of the soldiers which would have had to quit, and whose names I sent you, the commander called to report all officers of the Company. During this meeting we discussed the solution of the probelm of the reducing of two officers as well as the appointing of the sub-officers and the "troop" which had to be reduced. We agreed for the list of the soldiers, 21 persons. The matter of the officers was resolved only for one by HEIDELBERG who said that dr. DIBRA would be transfered overthere, and that anot her would be degraded although

remaining in the Company this would have been left to the competence of the Company too. During the meeting of the officers the Commander, to play his game of intrigues, proposed in front of all to degrade Adnan YPI. There is no doubt that Adnan YPI had been informed before the meeting by Caush BASHA, so he started opposing himself in front of all the other officers, justifying himself by saying that such did not touch him but others such as Isuf DEMA (LM) or Kol HILA (SK) who had worked less than him. The Commander pretended to insist with authority saying: "I am competent for such and you must accept this!" So, with reason, and without understanding the maneuver of Caush BASHA, rose Kol HILA who said "this should be resolved without attacking one and the other. I believe we should degrade the new officer "grader officer" Langer GUENTHER". Basho did not accept such and suspended the meeting.

While the meeting was suspended for one hour, BASHO spoke to the FRIEND and coming out of his room, called all officers once more to request the solution of the problem without however resolving anything. Immediately all officers were called by the Friend, and after discussions it was decided for Kol HILA's proposal to degrade LANGER and this decision was maintained until the 20 June, 1955.

During the time when all was silent, and that we had remained on the decision taken, Caush BASHO, who did not want LANGER to be degraded nor YPI, has been able through his close friend Colonel RECHT, commander of the Central of the Labour Service in Munich, to annul the decision taken for the degradation of Langer GRUENTHER (German) and decided that of Kol HILA, believing that HILA would not be supported by anyone. The motive for the degradation was that "HILA does not respect the orders of his superiors" This decision was opposed by nobody, not even by the responsible "Friend" (he might have been counselled too by a friend of Colonel RECHT).

On the 21 June, 1955, Kol HILA has been notified through a private letter, from Caush BASHO, that on the 30 June he would be degraded. As soon as he learnt such; HILA cabled KRYEZIU but has not received any answer about such until now.

The comrades of the group of HILA have declared that they were all ready to get out of the Company with him, but as HILA was expecting an answer to his cable, he has counselled his comrades to be calm, while he has insisted next to Caush BASHA to refuse the decision taken towards a responsible officer of a group, he being the only officer of the group.

HILA has told us that he had asked to see the responsible friends and that the latter had fixed him an appointment in his house. HILA has gone to see him at his house on the 26 June at night. HILA explained all his reasons and added that for the service of the defense of his own policy Caush BASHA should not be allowed to act as he does, he can do as ever he pleases. We, said HILA are represented by a Committee and recognised by the Allies and especially the Americans, why am I not allowed to defend my policy as well as that

of the Committee, how then can you allow Caush BASHO to defend his policy which is without the Committee? The "friend" answered "I know him as your commander, I can't intervene in his competences but inspite of this, regarding the reasonings yyou have presented me, I will try to find a way, inspite of the fact that you are considered someone who doesn't respect the orders of his superiours." HILA replied: "It is not true at all, this motive have been invented by BASHO, I have always respected his orders in my duty."

Kol HILA infront of the friends has presented the injustices made by Major Caush BASHO against the elements who are with the NCFA, as well as the fight he is leading against these elements hiding behind his duties. HILA said that BASHO had to degrade one of his officers, having two others for his group, and not me, the only officer of my group. He has also spoekn of the servility of Langer GRUENTHER to BASHO who also leads a double game. In fact that man takes money from the soldiers to teach them english or genrman. BASHO has allowed him to distribute once a week cinema tickets but take money for such. Langer does not pay for his food at the officer mess. HILA said that all these were matters without political character, but that the ~~latter~~ <sup>man</sup> would present to the Headquarters of the American Command, but before taking the true hierachic path, he had wanted the friend to know as American representative and friend next to us. Before leaving the "friend" asked HILA if he allowed him to make mention of all he had told him to BASHO. HILA said he may, as BASHO had been notified before going to see him.

The decision for the degradation of Kol HILA is attributed directly to BASHO, because the latter, for his own cause has defended with insistance the degradation of Mr. Langer, so that such a measure be not taken against one of his own officers, as he has done all his dirty ~~years~~ <sup>years</sup> for five years in the Company, through his two officers, especially with YPI, who not being very decided can reveal all of a sudden all the doings of BASHO.

I am letting you know the motivation of the command, therefore in case that this authority will remain where it is, there will be a complete annihilation of the elements faithful to the NCFA, and this will take place in a very short time.

We believe that you should do your best to annul the degradation of Kol HILA, to break the face, once and for all, to the adversaries of the NCFA who are living among the soldiers of liberty without any right!
